

Dear Parents/Carers

I am pleased to inform you that this week your child will receive their first Module Report of the academic year. This report can be found on the SIMS Parent App.

This module, your child will receive Attitude to Learning (AtL) grades for each subject. These are determined by the extent to which your child embodies our school rules: Be Ready; Be Safe; Be Respectful. Each of the three rules will receive a grade for each subject your child studies. The highest mark on each scale is 'Always', followed by 'Often', then 'Sometimes', and finally, 'Rarely'. This provides an accurate picture of your child's attitude, conduct and organisation across all their subjects over the course of a whole module. Examples of the criteria for each rule are shown below. Please talk to your child about how they follow the rules in other ways. Ready, Safe, Respectful can be never ending and these aren't exhaustive lists.

Please note, due to a staff absence your child may not have Geography AtL grades.

	Ready	Respectful	Safe
Our rules:	<ul style="list-style-type: none">• Arrives equipped to learn• Engages and participates in the learning• Completes homework• Tries hard in the lesson	<ul style="list-style-type: none">• Responds positively to staff• Responds positively to peers• Is considerate of other people's views and ways of working• Respectful of the school environment	<ul style="list-style-type: none">• Arrives to lesson Punctually• Follows instructions from staff• Works calmly and independent of close supervision• Abides by safety codes in practical subjects and changing area

In Module 2, 4 and 6, as well as receiving AtL marks, students will also receive an end of course forecast grade for each of their subjects, so that you receive regular updates on their predicted eventual performance in their summer examinations.. This will be based on classroom performance and assessments completed up to this point. Please note that students that study combined science receive two GCSEs and therefore have two forecast

grades, in the format 5 5. Those that study triple science have three forecast grades, indicating biology, chemistry and physics respectively. Triple scientist will also have three attitude to learning grades to reflect the fact that they are taught by separate teachers.

Finally, in Module 6, you will receive a written report for your child. This will include AtL and forecast attainment grades, a written report from your child's form tutor, as well as a breakdown of strengths and weaknesses in both knowledge and skills in each subject. This will help you to better understand the next steps your child needs to take to progress in their learning, as well as inform you of any additional support you may be able to provide at home.

I hope that this information provides some clarity on the report you have just received, as well as an indication of what you can expect to be reported home over the course of the school year. Finally, I would like to take this opportunity to remind you of the following key dates for this academic year:

Mock Examinations: W/C 21st April 2025 – Your child will sit mock examinations in all of their subjects. The purpose of these exams is to get students accustomed to formal exam rooms and conditions again, as well as the important process of revision and reflecting on their eventual performance. Students will be afforded the opportunity to reflect on their performance and take any relevant learnings into Year 11.

Year 10 Parents: Thursday 5th June 2025 – An opportunity to meet each of your child's teachers to discuss their progress in every subject.

If you have any questions, please contact the Academy in the usual way by emailing pembrokeenquiries@prioryacademies.co.uk.

Yours faithfully

Mrs S Warnock
Assistant Headteacher
