Year 9, Module 1

Subject	Unit title and details	Independent Learning Tasks
Art	<p>Gaudi</p> <p>Linking to the Spanish trip in the summer, students will undertake a unit of work looking at famous architect Antoni Gaudi. They will record and observe natural forms which inspired his buildings in an array of drawing media. They will look at the relationship between nature and his architectural structures. Students will then develop their own relief ceramic tile design based on their project work which will be decorated in mosaic.</p>	<p>Additional Independent learning activities available on Teams</p>
Computing	<p>Representations (Going Visual)</p> <p>Students will focus on digital media such as images and sounds, and discover the binary digits that lie beneath these types of media. Students will compose images out of individual elements, mixing elementary colours to produce new ones. Students will have opportunities to manipulate images and get an idea of how the underlying principles of digital representations are applied in real settings.</p>	<p>Additional Independent learning activities available on Teams</p>
Drama	<p>'Stage Combat'</p> <p>Students will be looking at how to create short scenes that incorporate elements of staged physical violence. The focus for the unit is how students can recreate both believable and safe movements, whereby no physical contact actually takes place.</p>	<p>Compulsory Independent Learning activity</p> <p>Students will be asked to completed a written account of how each combat movements should be performed, so that they could teach other students.</p> <p>This will be assigned during lesson.</p> <p>Additional Independent learning activities available on Teams</p>
English	<p>A study of a gothic novel: The woman in Black. Pupils will learn about the conventions of the gothic genre and explore how and where they are presented in a whole novel. Students will gain a wider appreciation of the romantic and gothic movement in literature.</p>	<p>Additional Independent learning activities available on Teams</p>
Geography	<p>Tectonics and Active Earth.</p> <p>This unit seeks to allow students to understand the role tectonics plays in shaping our natural world, the impacts disasters can have on people and how technology is helping us overcome and mitigate against these threats.</p>	<p>Compulsory Independent Learning activity</p> <p>In order to enhance students knowledge tectonics and hazards, students will be provided with a consolidation sheet week 4 of module 1.</p>
