Monday 5:

Option: Health and fitness, Badminton, Table tennis

Wednesday 5:

Boys – Invasion games (Handball 5)

Girls – Net/ wall sports (Badminton 5)

How can I support my child at home?

Homework is part of our school curriculum and serves to support the learning in class, enrich student experience and develop learning skills. Students will write the task and due date in their planner. Staff will give a reasonable amount of time to complete a task – usually a week. Please check this regularly.

Homework will be set by subjects when it is appropriate to the curriculum but will include the following:

Reading: this may be short articles, entire chapters, or reading for pleasure. Reading may be accompanied by comprehension questions or a task.

Revision and knowledge organisers: These provide the essential knowledge for the unit, and will be the basis of regular testing during the term.

Booklets and worksheets: Subjects may ask students to complete tasks linked to the learning in the lesson, or to extend their knowledge further. These should be returned to the teacher by the due date.

Online learning: Some subjects will use online learning platforms such as Hegarty Maths, GCSEPod or Duo Lingo as a platform for homework. Students will have their log in details, but if you need support with accessing or using these resources, please email the class teacher.

Working at home can be challenging for some young people, managing school work around family and other activities like sports clubs and cadets. We understand this, and can help through homework club (bookable by emailing fchapman@prioryacademies.co.uk) or by supporting you and your child remotely.

This [Remote Learning](#) document was produced to support remote learning, but the strategies equally apply to homework and independent study.
