NORWICH-BASED 3D ILLUSTRATOR AND ANIMATOR AJ JEFFRIES RELEASED A NEW ANIMATION THAT FEELS PARTICULARLY RELEVANT TO MODERN LIFE. SIMPLY DESCRIBED AS A STORY ABOUT “A HORSE, STRUGGLING TO EXIST,” THE SHORT FILM CHRONICLES THE EVOLUTION OF A PINK ANIMAL AS IT MORPHS FROM A BLOB INTO A FULLY REALIZED MARE. ITS BODY BENDS AND CONTORTS—AT ONE POINT, ITS NECK EVEN SHOOTS UP TO THE SKY, KILLING A PURPLE BIRD—BEFORE IT GETS SOME ENCOURAGEMENT FROM NEARBY PLANTS AND HAPPILY DANCES AWAY.

Challenge

USING A MODELLING MATERIAL LIKE PLASTICINE, PLAY-DOH, MODELLING CLAY OR SALT DOUGH CREATE YOUR OWN CHARACTER AND STORY. CAPTURE THIS THROUGH STOP MOTION ANIMATION OR A SERIES OF PHOTOGRAPHS.

Using a free phone app like 'Stop Motion Studio' you can create your own animation. Remember to set your phone up so it is steady as you take the shots and ensure your background is clear and well lit. You could add music or a voice over. Alternatively you can photograph each stage of your story and create a story board collage. There are free collage apps that could organise these photos for you. This animation has a message about modern life what could your story be? What message could you share?
