

A message from Mr Brewer, and all staff at Pembroke.

If you have struggled a bit for motivation this week, please let me re-assure you that you are very much not alone in feeling like this: 11 school weeks away from your normal school routine is a very long time. Everybody: students, staff & parents, will have days or moments in days when they struggle to pick up where they left off the day or the week before & carry on.

I have put together some advice that I have certainly been sharing with many other students in Lower School when they have also been having good and not so good moments. Some of the advice below you will find very relevant to how you are currently feeling, and some of the advice less so at this particular moment in time. I hope this helps to reassure you:

- As a school, it is better for us to offer too much work, rather than too little: as a result, there is no requirement for you to tackle absolutely everything in one go, especially when you are a hardworking student anyway
- As far as work completion is concerned, we would always favour quality rather than quantity (a house point is allocated to you for each piece of work sent to your subject teachers, just to help with motivation)
- Routine is good (as a teacher, I'm sticking to a school routine (8-4pm) from home, breaking for Joe Wicks and a blast of daily exercise – just like you!)
- As part of your routine, I would stick with tackling core subjects in the morning, when the brain is fresher & switch to more creative methods of learning in the afternoon
- Have a look at some of the online learning opportunities that are posted on the '[Home learning](#)' tab of our website too (Bitesize & Oak National Academy resources)
- Remember that Education, in the form of life skills, is everywhere around us – cooking, baking, reading, listening to music, gardening, cleaning.... You could set yourself some daily life skill tasks too, which I am sure your parents/carers would appreciate too!
- The most important thing at the moment during this extended shutdown is to look after ourselves (physically and mentally), whilst keeping the brain in the habit of daily learning
- Staying connected with school is also important, so keep sending an email each week or have a chat with the member of staff who calls, just to let us know how you are getting on and how you are feeling (some students email me like this every day!). A list of staff emails can be found on the Student Support page of [Sharepoint](#).
- Remember to pace yourself: this situation is sadly going to continue for some time yet, so if you feel that too much is set to get through, you have lots of time to approach tasks diligently, professionally and at your own pace

Finally, you should be very proud of your achievements during this enforced closure.

Please keep this message and re-read the advice on other days when you may be feeling a bit flat.
